TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript

Libraries and Frameworks: HTML, CSS, Tailwind CSS, React.js, Redux, NumPy, Pandas, Matplotlib

Backend Development: Node.js, Express.js, RESTful APIs

Cloud/Databases: MySQL, MongoDB, Firebase

Coursework: Data Structures and Algorithms, Computer Networks, Operating Systems, DBMS **Tools and collaboration:** Git (Version Control), Webpack, Gulp, SASS, LESS, Testing, Debugging

WORK EXPERIENCE

JP Morgan

Software Engineer Intern (Forage Program)

- Developed a scalable interface for stock price data feeds, optimizing data retrieval by 25% through improved API integration.
- Streamlined trader workflows by designing and implementing visually optimized data displays, resulting in a 30% reduction in time spent interpreting key stock market information across the trading team.

PROJECTS

Real-Time Chat Application 🔀

- Engineered a feature-rich chat application using the MERN stack, implementing secure JWT authentication and real-time messaging with Socket.io supporting over 100 concurrent users
- Designed a robust backend using Node.js, integrated MongoDB Atlas for data storage, and ensured seamless API communication, reducing server response time by 20%
- Optimized user experience with a responsive interface (React.js, Tailwind CSS) and efficient state management through Zustand, resulting in a 30% boost in engagement.

E-Commerce Website

- Built a responsive e-commerce solution leveraging React.js and Bootstrap, ensuring compatibility across multiple browsers and supporting an extensive product catalog of 100 products.
- Utilized Redux for managing complex state and streamlined interactions with data, enhancing system reliability by 20%
- Accelerated performance by reducing load times by 40% through the use of lazy loading techniques.

Portfolio Website

- Crafted an engaging portfolio site with advanced animations powered by GSAP, delivering a captivating visual experience.
- Integrated Leaflet is to enable mapping capabilities, allowing users to explore content interactively.

EDUCATION

Dwarkadas J.Sanghvi College of Engineering

B.Tech in Computer Engineering

2022 - 2026

Poddar Brio International School

Higher Secondary Education 2020 - 2022

ACHIEVEMENTS

- Led a team during a Professional Business and Communication project, demonstrating teamwork, drive, and initiative, achieving an 85% client satisfaction score.
- · Currently leading a team for an IPD project, focusing on collaboration and achieving project goals
